THE ARAB-GERMAN YOUNG ACADEMY OF SCIENCES AND HUMANITIES (AGYA)

MEMBERS 2025/26

About AGYA

The Arab-German Young Academy of Sciences and Humanities (AGYA) is based at the Berlin-Brandenburg Academy of Sciences and Humanities (BBAW) and at the Academy of Scientific Research and Technology (ASRT) in Egypt. It was established in 2013 as the first bilateral young academy worldwide. AGYA promotes sustainable research cooperation between outstanding Arab and German scholars (3-10 years post-PhD) from all disciplines.

The academy offers its members the unique opportunity to develop and implement their ideas and visions through research projects and joint initiatives at the interface of science and society. AGYA members share an inter- and transdisciplinary approach to scientific enquiry, with the intention of seeking solutions to societal challenges. Together, they realise innovative research on topics such as Arab and German Education; Common Heritage and Common Challenges; Dynamics of Transformation; Energy, Water, and Environment; Health and Society; and Innovation.

AGYA is funded by the German Federal Ministry of Research, Technology and Space (BMFTR) and various Arab and German cooperation partners.
